Welcome 2020!

Term 1 was filled with fun engaging activities for our children. In this newsletter, we would like to share some of our children's learning for the term based on MK's flagship programmes, Starlight Literacy and HI-Light.

Let's continue to work together, and to be socially responsible in fighting against COVID-19!

Current Issues: COVID-19

In this section, children are informed about current events and participated in discussions. For this term, they shared about what they know, and how they are able to do their part in the prevention of COVID-19. They also identified the heroes who have been helping to keep Singapore safe.

Children shared about how they show appreciation and care for the people who are helping to keep Singapore safe. They then created cards to thank the heroes in our school and hospitals.

"At MOE Kindergarten, our vision is to provide a strong start for every child.

Our mission is to nurture children holistically into confident learners with strong social skills, and a good foundation in literacy and numeracy."

Thank you for joining us on this journey!

Quote for thought

"Nothing you do for children is ever wasted. They seem not to notice us, hovering, averting our eyes, and they seldom offer thanks, but what we do for them is never wasted." - "

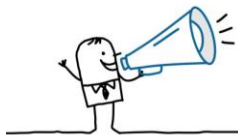

- Garrison Keillor

Term 1 Happenings!

Chinese New Year Celebration

To celebrate this year's Chinese New Year, our children dressed up in their Chinese traditional costumes and performed 3 songs on stage! They celebrated the special occasion together with Frontier Primary School. Our children also sang along to Chinese New Year songs and had enjoyed the performances put up by the Primary School children.

Back in the MK@Frontier classrooms, children learned to exchange Chinese New Year greetings with their teachers and friends! They also received oranges and red packets from their teachers.

Current Issues!

Total Defence Day

To commemorate Total Defence Day, children talked about the different pillars of defence - Military, Civil, Economic, Social, Psychological, and the newly added Digital Defence. The children learned more about the new pillar of defence and shared their ideas on how they can do their part to keep Singapore safe, secure and stronger as a country. After watching a video on Total Defence Day, children worked together to create a poster signifying the pillars.

Outdoor Play

This term, children were introduced a variety of outdoor play experiences. They experienced riding trikes together with their friends.

Children also had water play where they played with bubbles and explored water painting with different materials. Children also experienced and experimented with mixing different colours of watercolours.

K1 Updates

Starlight

Our K1 children read the book "The Shower" and were introduced to vocabulary words such as "spider" and "something". The children were also introduced to the letter of the week - "B" and "b" and its sound. In one of the follow-up activity, children were encouraged to model the sentence "*Something is on my (noun)! It is a (noun)!*" Many interesting and fun sentences were created!

"Look! I am crawling like a spider!"

"Something is on my back! It is a marker."

Hi-Light

Our K1 children went on a colour hunt around the school to spot different colours on a variety of objects. Prior to the colour hunt, they learnt about the importance of taking care of their eyes. They also identified and named different colours and objects in the classroom.

"We see a black wall looking at us!"

"We see a red cone looking at us!"

"I see a blue wall looking at me!"

During the hunt, they used their sense of sight to observe the different colours in the environment!
